**The topics below must be responded clearly**

- 1. Description of the proposed training program (s), in terms of the objectives of the two programs, “Impulso Jovens STEAM” and “Impulso Adultos”, including in particular:**
  - i. description of the institutional strategy and justification of the options considered;
  - ii. a general description of the proposed training programs, which already exist and / or are to be created under the current legal regime, including relevant adjustments to already existing training as a result of concrete interactions with employers;
  - iii. experimental projects, within a framework of interdisciplinarity and transdisciplinarity, following the best international practices;
  - iv. scientific capacity and coordination with R&D units;
  - v. academic offer strategy and reinforcement of training leading to micro-accreditations;
  - vi. level and capacity for internationalization and strategy for attracting foreign students, including involvement in European networks;
  - vii. capacity and strategy for articulation with collaborative innovation centres and networks, in conjunction with employers and the incubation of business projects;
  - viii. capacity and strategy for articulation with secondary schools, especially in the vocational education, when applicable;
  - ix. strategy for organizing learning / teaching / research spaces and encouraging their connection to citizens, cities and territory, in the case of renovation projects / construction of facilities.
  
- 2. Conditions for the reception / installation of the proposed training program (s) and the financing execution plan, preferably until the end of 2025 and ensuring the full execution of the commitments assumed and contracted by the proposers by the end of 2023, namely for:**
  - i. construction, infrastructures, installations and equipments;
  - ii. hiring of human resources;
  - iii. other expenses;
  - iv. support for students, in the form of grants, merit grants and / or others.
  
- 3. Estimated analysis for the regional and national impact in terms of the relative contributions of the proposed training program (s) to achieve the following goals in terms of the population living in Portugal:**
  - i. 60% of young people aged 20 to participate in higher education, by 2030 (compared to 51% in 2020);

- ii. 50% of higher education graduates among the population aged 30-34, by 2030 (while it was around 37% in 2020);
- iii. Increase in five times the number of adults undergoing lifelong training in all HEIs, in conjunction with employers, by 2030.

It should also include an estimate of the expected impact of the application's relative contribution to meeting the following national targets:

- i. At least 25 higher education programs in the areas of science, technology, engineering, arts / humanities and mathematics (STEAM), by the second quarter of 2025;
  - ii. At least 10,000 additional annual graduates in higher education courses/cycles of study exclusively in STEAM areas, compared to 2020;
  - iii. At least 23 thousand participants in short courses of superior scope, at initial and postgraduate level, supported until the 3rd quarter of 2025, with an intermediate target of 15 thousand (2nd quarter of 2023);
  - iv. Installation of a network of at least 10 “schools” and / or “alliances” for postgraduate training in collaboration with employers, for short postgraduate courses, with at least 4 “schools” and / or “Alliances” for postgraduate training in the inland areas of the country, until the 3rd quarter of 2023.
4. **Relative level of involvement of the consortium partners, especially public and private employers, in the programming and implementation of the proposed training programme(s), namely in:**
- i. co-definition and co-design of training programs;
  - ii. availability of human resources for specialized training;
  - iii. attraction of students (especially adults);
  - iv. employability conditions of trainees;
  - v. co-funding of activities to be promoted.
5. **Capacity of the investment proposed to leverage other sources of co-funding, public and private, national and European, including synergies with other programs of the PRR/RRP, as well as other national and community funding programs (ie, centrally managed funds, including Horizon Europe, or decentralized, including structural funds).**
